*Florida Southern Roofing just completed our condo association roofs. This was a large job and we had several choices of contractors. As a board member I was on the selection team. We were fortunate enough to select Florida Southern. If I could give them six stars I would. We found Florida Southern to be a Company with a rare amount of integrity. They were honest, responsive, very hard working (6 days many weeks and a couple holidays), and always aimed to please, even when some of our requests were difficult...*

## METAL ROOFS

Florida Southern Roofing manufactures and installs Metal Roof Systems, built not only to meet the new stringent Florida Building Codes, but also to truly enhance the appearance of your home.

Constructed of sturdy and corrosion - resistant Galvalume steel and aluminum, and anchored securely with heavy duty fasteners, our metal roofs withstand hurricane force winds better than any other roof. Available in 32 colors plus Natural Mill Finish. We even have metal roof systems profiled to imitate concrete roof tile!

***Check out our affordable Metal Roof Systems Today!***

## TILE ROOFS

If your old tile roof detracts from the beauty of your home, replace it with a beautiful new tile roof. It will improve the value as well as the look of your home.

Florida Southern Roofing offers some of the finest lines of concrete and clay tiles available. We utilize advanced installation systems that will keep the tiles locked in place, even under high winds.

You can choose a tile color and profile from our online design center. Then we'll bring a sample of that product to your home!

***We Guarantee your 100% Satisfaction!***
